This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

"We should aim to keep the University in organic connection with its ALUMNI. Wherever they may be, they should be made to feel that they have both rights and duties as regards their ALMA MATER. As regards their RIGHTS, they should be kept well informed regarding the condition of the University by her reports and more important publications; they should be welcomed at her annual and other festivals, and their opinions, when carefully based and thoughtfully expressed, should have full consideration. As to DUTIES, they should be impressed with the idea that they have something to DO for the University * * *; that they should take large and friendly views in judging of University questions * * *; that they should aim to make the claims of the University known in the various sections of the country where they may live; and if successful in the accumulation of wealth, to remember that a University in a great and growing nation will always need additional endowments to keep pace with the advance of the country."—EX-PRESIDENT ANDREW D. WHITE, OF CORNELL UNIVERSITY.

PREFACE.

This work, which is purely a labor of love, was begun in June, 1886, by the Committee appointed for that purpose at the annual meeting of the Alumni Association. It is the first book of its kind published for the College, save previous lists of *graduates* with their addresses only. On account of the lack of data from incomplete college records, from the death or unknown whereabouts of many of the students, and from the failure of some to respond to repeated letters, the work falls far short of that completeness which was so earnestly desired. A complete record of all the students of any institution of learning would be of value to its friends in many ways. Many such records for any State or section would afford material for thought on the part of educators.

In so far as the Catalogue is incomplete, its value is diminished, but with its incompleteness, and the errors which are unavoidable in a work of its kind, the Editors hope the book will serve not only to remind the student of his college life and the friendships there formed, but will also afford him much cause for pride in his *Alma Mater* and gratification at the results of her first fifty years' work. Our *Alma Mater*, after struggling with small beginnings, then lack of funds, Faculty dissensions, students' rebellions, and a civil war, is now firmly established on a higher plane of usefulness than ever before. It remains with the *alumni* largely to see that her record for the second fifty years shall be one of ever-increasing brilliancy.

In the preparation of this work we wish to acknowledge our indebtedness to the Alumni Catalogue (1881) by Rev. S. C. Alex-

ander, '48; to the file of Annual Catalogues presented by Professor J. R. Blake, several of which contain names and addresses of the graduates; to the records of the Trustees, Faculty and Literary Societies; also to the vast body of *alumni* and friends of the College who have so generously aided in the work. Among these mention may be made of Dr. J. G. Ramsay, '41; Capt. S. Z. Williamson, '46; A. White, '47; Rev. Dr. J. Rumple, '50; Major J. R. McLean, '51; Capt. H. A. Chambers, '64; Rev. G. Summey, '70; Rev. A. Sprunt, '75; P. M. Brown, '80; Professor D. H. Hill, '80; Dr. J. R. Adams, '45; Rev. Dr. A. J. Witherspoon, '42; Dr. R. F. Maurice, '56; W. N. Scales, '86; Colonel W. J. Martin, LL. D., and others.

The Editor would also take this occasion to express his acknowledgments to his associates, Professor Hill, Rev. Drs. Lacy and Moore and Professor Smith, for the valuable assistance and cordial co-operation they have given in the preparation of the Catalogue. W. A. W.

All persons into whose hands this Catalogue may come are requested to examine it carefully and to inform the Editor of any errors or omissions. The class of each person to whom reference is made should be given in all cases.

EDITORIAL NOTES.

Davidson College was opened on March 1st, 1837, for the admission of students, with Rev. R. H. Morrison, D. D., as President; Rev. P. J. Sparrow as Professor of Languages, and M. D. Johnston as Tutor in Mathematics. The work has been carried on without intermission to the present time. When the Fiftieth Anniversary was near at hand it was decided to prepare some brief account of those who had been connected with the College in various capacities. At their annual meeting in June, 1886, the Alumni Association appointed for the work a committee consisting of the Editor, Professor J. H. Hill, Rev. W. S. Lacy and Professor W. J. Bingham. At the Commencement in 1888, Professor Henry Louis Smith was appointed to fill the vacancy caused by the lamented death of Professor Bingham. About January, 1889, Rev. W. W. Moore, D. D., was added to the Committee.

The bulk of the work was so great that it was impossible to complete the Catalogue by the time desired. To meet the needs of the occasion to some extent, however, and to aid the Editors in their work also, a Preliminary Catalogue of sixty-one pages was published on March 31st, 1887, containing the names and addresses of the students. Owing to the fact that no previous list of this kind had been published the work was very difficult. There were no College Catalogues for the years '36–'37 to '42–'43, inclusive; '44–'45, '59–'60 and '61–'62 to '67–'68, inclusive. The College records also previous to 1861 were lost. The only way remaining by which we could obtain the students' names was to examine the minute books of the two Literary Societies and record each name as it appeared for the first time. This method is tedious and liable to inaccuracy, and while it is probable that some names have been omitted for the years previous to 1861, it is almost certain that the names of about seventy-five members of the Sub-Freshman Class from '61–'65 have been omitted; of these we have been unable to obtain the slightest trace.

We have written over three and a half thousand letters and mailed as many circulars in our endeavors to get information relating to each student, but notwithstanding this we regret to say that there are over four hundred and fifty whose occupations are unknown to us. We are glad, however, that of these there are only about three hundred whose addresses are unknown.

As the years go by it becomes more and more difficult to obtain information of those who are dead or of those who from some cause have failed to respond to the repeated requests of the Editors. This makes it very urgent to give attention to the notice on page IV if subsequent editions of this book are to have the completeness desired.

We regret that it was impossible to insert the photo-lithographs of the Presidents, etc., referred to in the Preliminary Catalogue.

ALPHABETICAL INDEX OF STUDENTS.

The numbers preceding the name indicate the class (the graduates and undergraduates having a † in addition). The graduates (classes '40 to '89) are from pages 26 to 77, inclusive; the undergraduates (classes '90 to 94) pages 158 to 162, inclusive, and the matriculates, pages 78 to 157, inclusive. The * indicates deceased. A surname, common to several students, is not repeated, but must be understood to belong also to the initials immediately following it. The figure following the initials indicates the number of students having that surname in common.

The students are required to attend Divine Worship and Bible Recitation on the Sabbath.

The collegiate year is divided into two sessions of five months each, commencing on the first Monday of September and of March. February and August are vacation months, and the Annual Commencement is on the last Thursday of July.

Board is at the low price of $30, and tuition $15 per session, both payable in advance.

The Literary Societies of the students are known to be under good regulations, and highly favorable to the promotion of intellectual improvement.

The Libraries number about 700 volumes each of well-selected books and receive additions every session, which, in connection with the College Library, afford to the students an opportunity of extensive reading.

LOCATION.

Davidson College is in Mecklenburg county, North Carolina, on the Atlantic, Tennessee and Ohio Railroad, twenty-two miles north of Charlotte, and twenty-two miles south of Statesville. The post-office is a money order office. There are telegraph and express offices in town. The site of the college and adjacent village is remarkably healthy, being free from malaria and other causes of sickness. Few places are so free from temptations to vice and extravagance. The situation of the college is remote from towns and large villages. By a law of the State no intoxicating liquors are allowed to be sold within three miles of the place.

The college was founded in 1837, and has continued in operation, without any suspension, since it was first opened.

ADMISSION.

AGE.—The earliest age at which, in general, it will be advantageous to enter college is at the completion of the fifteenth year. The Faculty is authorized to matriculate a student at an earlier age, provided sufficient reasons exist.

TESTIMONIALS.—Every applicant for matriculation must submit to the President satisfactory testimonials of good moral character, and, if from an academy or college, a certificate of dismission in good standing.
